

POWERING THE
ECOSYSTEM.
**ACCELERATING
MARKET READINESS.**

AUTOMOTIVE & TRANSPORTATION

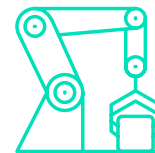

Sector Proposition

In a sector defined by speed, safety, and sustainability, we empower automotive innovators to accelerate time-to-market through locally tuned engineering and global technology partnerships. We fuse smart platforms with domain expertise to drive mobility transformation across the Kingdom.

Key Capabilities

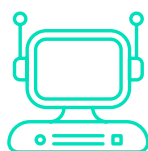

**Autonomous &
Connected Vehicle
Platforms**

**Smart Manufacturing
& Industry 4.0
Integration**

**Advanced Driver
Assistance Systems
(ADAS)**

**Digital Twin &
Edge AI Technology**

**Automated Test
Equipment & Predictive
Maintenance**

Our Approach

Stage

What It Delivers

	Research & Concept	Align technical feasibility with market goals
	Design & Engineering	Engineer scalable and compliant systems
	Prototyping & Testing	Validate solutions with high-cycle iterations
	Production & Implementation	Ensure performance and local fit
	Deployment & Integration	Speed time-to-market and regulatory alignment
	Continuous Improvement	Evolve alongside industry needs

Value Delivered

Accelerated product validation and launch cycles

Seamless integration with manufacturing ecosystems

Compliance with national regulations and global standards

Enhanced vehicle safety and connectivity performance

Scalable innovation with reduced development costs

Why SAAB RDS

Trusted by
top global
automotive brands

Human-centric
design integrated
with smart systems

Proven 5–10X ROI
across development
cycles

Engineering-first
with local execution
power

Let's Drive Innovation Forward.
