

ENGINEERING-LED DIGITAL TRANSFORMATION.

CORPORATE PROFILE

Company Overview

Founded in Nevada, USA (2019), SAABRDS is a house of innovation excellence. We engineer smart technology platforms that solve complex operational challenges across industries—merging strategic insight with execution speed.

- **Engineering-first** mindset
- **Global market presence** and regional execution
- **Trusted by innovators** in defense, mobility, manufacturing, and academia

Our Identity

Built for Impact. Driven by Engineering.

Our purpose is clear: help organizations leap forward. That means blending global expertise with local execution. We believe in:

- **Excellence:** Precision in everything we engineer
- **Collaboration:** Technology that fits real-world workflows
- **Integrity:** Built for trust, compliance, and long-term value

Strategic Alignment: Supporting Vision 2030 and global innovation mandates with operational clarity and certified excellence

Services Overview

SAAB RDS provides high-impact engineering and consulting services:

- Maintenance & Reliability Programs
- System Engineering & Integration
- LabVIEW Consulting & Automation
- Digital Transformation Strategy & Execution

Each tailored to help clients evolve, scale, and outperform.

Technology Solutions Portfolio

Our proprietary and integrated platforms include:

Solution	Benefit Delivered
 Automated Test Equipment	Faster QA, reduced defects
 Connected Worker	Enhanced safety and task performance
 Data Acquisition Systems	Real-time insight and quality assurance
 Predictive Maintenance	Asset uptime and cost reduction
 Cybersecurity	Compliance, threat mitigation
 R&D for Academia	Accelerated innovation and talent impact
 SDR for Aerospace & Defense	Secure tactical communication

Each solution includes customizable deployment, impact metrics, and regulatory alignment.

Industries Served

SAAB RDS operates across high-impact sectors:

- **Manufacturing:** Smart factories, Industry 4.0
- **Automotive:** Connected mobility, ADAS validation
- **Aerospace & Defense:** Mission systems, SDR communication
- **Academia:** Research enablement, lab digitization

With tailored technologies and proven ROI across each.

How We Deliver – Lifecycle Framework

Stage	Description	
 Research & Concept	Technical feasibility + strategic alignment	
 Design & Engineering	Scalable, compliant architecture	
 Prototyping & Testing	Validation cycles with performance metrics	
 Production Deployment	Fit-for-purpose implementation	
 Integration	Local optimization + regulatory compliance	
 Continuous Improvement	Long-term evolution and service excellence	

This approach ensures clarity, speed, and measurable impact.

Why Clients Choose SAAB RDS

Proven 5–10X ROI across deployments

Modular, scalable platforms with sector flexibility

Certified compliance across global and regional frameworks

Integration with real-world workflows and legacy systems

Trusted by forward-thinking institutions and innovators

Case Study Highlight

Proof in Performance. Impact in Action.

From R&D acceleration in academia to fleet readiness in defense, SAAB RDS delivers measurable impact across sectors and technologies. These featured case studies highlight how our engineered platforms turn challenges into performance gains.

Sector
Automotive

Challenge
Slow product rollout and high defect rate

Solution
ATE Deployment

Impact Delivered
45%
defect reduction

Our Leadership Team

CHIEF EXECUTIVE OFFICER

Rodrigue Saab

Rodrigue co-founded SAAB RDS with a vision to Raise the Bar in technology engineering services. His passion for excellence infused with deep desire to empower organizations triggered the purpose to connect clients with fit innovations at speed. Rodrigue holds more than 20 years' experience leading regional technology business units with hands-on experience pioneering complex technology solutions across various sectors. He holds a Masters degree in Engineering and is a graduate of Senior Executive Leadership program from Harvard University.

CHIEF OPERATING OFFICER

Ralph Saab

Ralph co-founded SAAB RDS with a vision to deliver the next generation of researchers, engineers and scientists. His passion for the "Next-Thing" powered his forward thinking approach to help SAAB RDS stay ahead of trends and benefit from the latest innovations to empower clients from various sectors across multiple practices. Ralph holds more than 25 years' experience in leadership roles across global technology businesses. He holds a Masters degree in Engineering in addition to attending numerous technical trainings in advanced technologies.

Our Leadership Team

CHIEF MARKETING OFFICER

Elena Rios

Elena is the Chief Marketing Officer at SAAB RDS. She joins our business with more than 20 years' experience at multiple high tech global businesses. Elena's passion to connect engineering as a function to a world of business opportunities fuels her drive to make SAAB RDS the technology provider of choice. Elena holds a Bachelor degree in Linguistics and Masters in Translation. In addition she is a lifetime member of IAPWE.

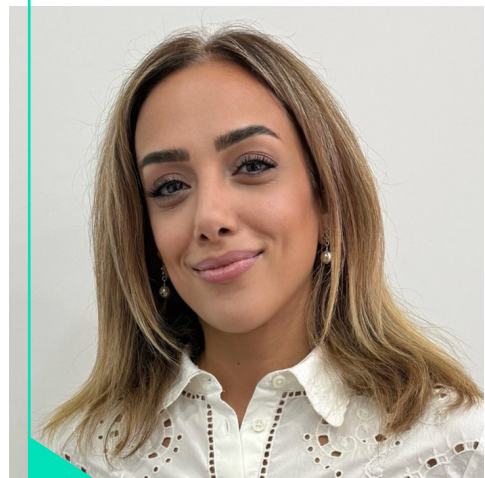

**"WHERE EXCELLENCE
MEETS INNOVATION" isn't
just a tagline—it's how we
operate every day.**

CHIEF HUMAN RESOURCES OFFICER

Carine Salem

Carine is the Chief Human Resources Officer at SAAB RDS. She joins our business with more than 20 years of cultivated experience across various roles within large global businesses. Carine's passion for mastery drives her journey to help our organization become exemplary in attracting and cultivating talents to deliver superior results to our clients. Carine holds a bachelor degree in nursing sciences and an advanced degree in biomedical disciplines.

Let's engineer what's next—together.
