

EMPOWERING PEOPLE.
ENHANCING PERFORMANCE.
ELEVATING SAFETY.

CONNECTED WORKERS

Technology Overview

Our Connected Worker platforms bring real-time insight into frontline operations. Using wearables, edge analytics, and intuitive dashboards, we help organizations improve task clarity, safety compliance, and workforce agility—connecting people to data like never before.

Key Features

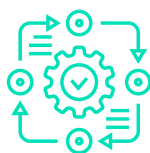

Wearables for task guidance and safety

Digital work instruction delivery

Location and activity-based insights

IoT integration for workflow optimization

Role-based dashboards and alert systems

Performance Impact

Metric	Result Delivered
 Incident Rate	30–40% reduction in safety breaches
 Task Completion Efficiency	25–35% increase
 Manual Errors	Up to 50% decrease
 Onboarding Speed	60–80% acceleration with guided instructions
 Team Coordination	Real-time visibility boosts cross-role sync

Approach-to-Impact

Approach	Outcome
 Wearables + Location Awareness	Visibility and safe execution
 Real-Time Work Instruction	Faster onboarding and lower deviation
 Human-in-the-loop Analytics	Feedback-based performance optimization
 Smart Alerts & Dashboards	Role clarity and rapid decision-making

Sector Applications

Automotive

Production line guidance, QA alerts

Aerospace & Defense

Field safety, remote coordination

Manufacturing

Assembly optimization, training workflows

Academia

Research task management and lab protocols

Why SAAB RDS

Human-first systems
that fit operational
realities

Modular platforms
built for scalability
and integration

Proven impact
in boosting safety and
productivity across
industries
