

CHANGING THE GAME.
ENGINEERING SMARTER
FACTORIES FOR
SUSTAINABLE GROWTH.

MANUFACTURING

Sector Proposition

We help manufacturers evolve into intelligent, agile ecosystems. We merge engineering precision with digital transformation to deliver solutions that maximize performance, optimize quality, and enable scalable innovation across the Kingdom's industrial backbone.

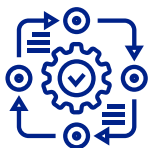

Key Capabilities

**Connected Worker
Ecosystems**

**Predictive
Maintenance
Platforms**

**Automated Test
Equipment (ATE)**

**Industrial
Cybersecurity
Frameworks**

**Advanced Data
Acquisition Systems**

Our Approach

Stage	What It Delivers	
 Research & Concept	Alignment with industrial operations and digital goals	
 Design & Engineering	Custom-fit technologies for manufacturing workflows	
 Prototyping & Testing	Early-stage validation of solutions	
 Production & Implementation	Seamless line integration and reliability assurance	
 Deployment & Integration	Speed, performance, and local optimization	
 Continuous Improvement	Adaptable systems that evolve with market needs	

Value Delivered

**Up to 50% increase
in throughput**

**40–60% reduction in
time-to-market**

**5–10X return on
innovation investment**

**30–50% reduction in
operational inefficiencies**

**Boost in employee safety
and visibility across lines**

Why SAAB RDS

**Cross-sector
expertise**
trusted by
manufacturing
leaders

**Modular, scalable
platforms**
built for industrial
environments

**Integration of
smart systems**
with human
workflows

**Vision 2030
alignment**
and proven
operational impact
